## **Hatters needed to grade Vital Signs 2011**

**Medicine Hat, Alberta (August 15, 2011)** – The fifth annual Medicine Hat’s Vital Signs will be made public on October 4, 2011, but the Community Foundation needs to hear what Hatters think of their city first.

Each year the Community Foundation publishes Vital Signs which looks at various components of life in Medicine Hat including Health & Wellness, Housing, Learning and Safety to name a few.

Residents are asked to go online to <http://app.fluidsurveys.com/s/MHVitalSigns-2011/> and give their opinion on selected statements. These responses will be collected anonymously and collated in order to give a final grade, which will be published in the October publication. Residents have until Friday, August 26 to complete the survey.

We encourage all “Hatters” to participate in the survey and have their opinions heard.
